ME:* IEEE 802.3 Interpretation 1-7/10 response

Interpretation 1-7/10

Request

<http://www.ieee802.org/3/interp/interp-1-0710.pdf>

- Response to request #1
 - Your interpretation request referenced text in Clause 32. Clause 32 is not recommended for new installations. However, the standard is unambiguous. Further, the standard references the IEC 60060 documents for the waveform shape (e.g. the meaning of virtual front which is not defined in IEEE Std 802.3-2008) and not intended for the values.

Interpretation 1-7/10 (con't)

- Response to request #2
 - See response to interpretation request #1 above.
- Response to request #3
 - This request is being returned to you because the question asked does not constitute a request for interpretation but instead a request for consultation. Generally, an interpretation request is submitted when the wording of a specific clause or portion of a standard is ambiguous or incomplete. The request should state the two or more possible interpretations or the lack of completeness of the text.

Interpretation 1-7/10

- The LMSC Executive Committee approves the response to interpretation request 1-7/10.

ME:* IEEE 802.3

**liaison letter response to ISO/IEC
JTC1 SC25 WG3 Optical return
loss**

IEEE 802.3 liaison letter response to ISO/IEC JTC1 SC25 WG3 on optical return loss

- The LMSC Executive Committee approves the letter IEEE802d3_to_ISOIEC_JTC1_SC25_WG3_01_0710.pdf, with editorial license granted to the Chair (or his appointed agent), as a liaison communication from the IEEE 802.3 working group to ISO/IEC JTC1 SC25 WG3 on optical return loss requirement for high data rate (1Gb/s and above).

ME:* IEEE 802.3 Liaison response to IEC/SC 46C on DC resistance unbalance

IEEE 802.3 Liaison response to IEC/SC 46C on DC resistance unbalance

- The LMSC Executive Committee approves the letter IEEE802d3_to_IEC_SC46C_01_0710.pdf, with editorial license granted to the Chair (or his appointed agent), as a liaison communication from the IEEE 802.3 working group to IEC/SC 46C on DC resistance unbalance specification in IEC 61156 series.
