Subject: Liaison reply to ITU-T Study Group 5, Request for a liaison on Ethernet port isolation between ITU-T SG5 Home Networks Special Group and the IEEE 802.3 Group

Date: 21 July 2011

From: IEEE 802.3 Ethernet Working Group

Approval: Agreed to at IEEE 802.3 Plenary meeting, San Francisco, CA, July 21, 2011

Dear Mr. Day,

Thank you for your information regarding the ITU-T Study Group 5 (SG5) formation of the Home Networks Special Group. At this time the IEEE 802.3 Ethernet Working Group does not have an individual to appoint as a liaison between our groups.

We would like to, however, share information between the two groups as this topic, and the possible issuance of new ITU-T K-series Recommendations, is of great interest to the IEEE 802.3 Ethernet Working Group.

The IEEE 802.3 Ethernet Working Group would like to request that any draft material of ITU-T K-series Recommendations concerning Ethernet port protection be made available for comment by the group.

[Sincerely,  
David Law  
Chair, IEEE 802.3 Ethernet Working Group  
<[dlaw@hp.com](mailto:dlaw@hp.com)>
